

Take your power with you 

## APOLLO

### Features

- Feed to Grid - excess electricity can be sold for profit
- Touch screen LCD display and controls
- Remote Monitoring – monitor product performance anywhere anytime
- Portable, Plug and Play with sleek and compact design
- UPS for uninterrupted power supply

Battery	Battery Capacity	15 Kwh
	Battery Type	Li-ion Battery
AC Output	Rated Output Power	5000W
	Peak Output	7500W
	Output Voltage	100V/110V/120Vac OR 220V/230V/240Vac
	Output Frequency	50Hz/60Hz
	Overload Ability	120%<load<130% @10min; 130%<load<150% @10s
	UPS Function	Yes
	On/Off Grid Mode	On and Off Grid mode
AC Charge	Input Voltage	100V/110V/120V OR 220V/230V/240V
	Max Charge Power	5000W
PV Charge	Max Input Power	5000W
	MPPT Input Voltage	75~140 Vdc
	MPPT Efficiency	99.50%
General	Working Condition	Relative Humidity: 5%~90%
		Temperature: 0~45°C (charge). 0~60°C (discharge)
	Product Dimension	L930×W750×H1770mm
	Net Weight (kgs)	420
